

## *Wondering About Homeschooling?*

In Kansas, we are considered a Non-accredited Private School.

Did you know that most private schools are non-accredited?

Homeschooling allows the opportunity to make the school accommodate the family, rather than the other way around.

### **How much time does it take?**

A lot less than you might think. Homeschool students don't have to take time to change classes or travel to and from a school, so they can proceed at their own pace. In elementary years especially, parents and children often find that they may only need a few hours to accomplish their work for the day.
